STEP 2

Wording on the Plaque:

- Wording on the 10 inch X 5 inch plaque is subject to approval.

STEP 3

Bench Placement:

- The Parks Division must be consulted to ensure appropriate placement of the bench.
- The bench must not interfere with grounds keeping and/or maintenance as well as any underground mechanics.
- Every effort will be made to accommodate a family's request.
- Attention to the park's esthetics i.e. near shade, away from other obstructions, etc.

The Stratford Dog Park Association and the City of Stratford appreciate your contribution to the dog park's environment. Our aim is to have an attractive, consistent and safe environment for our park patrons. In addition, the bench construction affords as little, long term maintenance as possible.

Thank you for your considering this “in memory” option.
